

## ZyMove

### Zymove Webaccess

You realise the value of your data, this is especially true when you can't get at it!

With ZyMove, you have 24/7/365 access to your data on the move, wherever you are. All you need is a computer with Internet access and a web browser. Forgot to load that all important file on your notebook and you are at that big meeting? That's not a problem with ZyMove, the web based utility from Zyvault Online Backup.

You can use it to access files that have previously been backed up from your main account or, in case of a disaster, get quick access to vital files and data from your backup account on any web enabled PC or Mac.

Click [here](#) to visit the ZyMove page. You will need your username, password and the unique encryption key.

Zyvault Online Backup: safe - secure - always there
